Law Enforcement Courses

Creating Community Engagement

16 Hours \$399

Creating and operating a community outreach unit. Discussions include organizational structure, outreach styles, event logistics, social media outreach, finance, and more.

Students are encouraged to bring information from their agency, such as a calendar of events and goals, so the course can actively be used to improve their efforts.

Crime Prevention Through Environmental Design

16 Hours \$399

This course introduces students to the concept known as CPTED. Students will learn to identify security issues within designs of current structures and locations.

Students will also learn appropriate recommendations to prevent and deter crime and unwanted behaviors.

Social Media and Marketing

8 Hours \$199

Social media is a great tool to be used for communication and outreach.

Businesses for years understand the importance of marketing to the public.

Developing a positive image helps agencies put their best foot forward and engage with stakeholders they have yet to reach.

Public Courses

Leadership Essentials

8 hour \$199

With a world full of supervisors and managers, be a leader. This course discusses skills everyone can apply to develop themselves as a leader. This course is ideal for personnel at any level within a business. Topics include time management, interpersonal skills, and developing a healthy work-life balance.

Learning How to Teach

8 hour \$199

This course focuses on instructor development. Often, staff members are called upon to train others, but are not provided the time to build their own skills. Better instructors create a more professional and effective staff. Topics include public speaking, information delivery, and training standardization.

Consulting Services

Site Security-Survey

Schools, religious sites, and commercial businesses are too often victims of crimes, ranging from trespassers and thieves, to active shooters. Our security surveys help to identify weak points in your location's current security measures and provides recommendations on how to better protect against and deter criminal activity. We combine socio-environmental theories with years of law enforcement experience to provide you with the best product possible.

Community Outreach

Interested in starting or updating your current community outreach and engagement efforts? Let us help develop your plans, goals, and efforts. Our goal is to help local businesses, healthcare providers, government entities, and community workers network for the greater good. If we can develop these various professional relationships, we can make neighborhoods safer.
